CERTIFICATIONS

- ▶ **Industrial Master** 1992
- ▶ **Application Programmer** 1994
- ▶ **DIN Standardization Expert** 2013
- ▶ **CAWeb Master** 2020

KEY COMPETENCIES

- SAP R/3 (MM, PP, QM, FI, CO)
- Master Data Management
- SAP Material Master
- DIN / ISO / EN Standards
- Technical Data Classification
- Customizing
- Data Migration & Cleansing
- AI / ML: Python, TensorFlow, Claude Code
- VBA / SQL / MS Access / MySQL
- Neo4j / XDev / SAP GUI Scripting
- CAD: Creo / Pro/E / AutoCAD
- MatDB / Genesis / FEMFAT
- HTML / PHP / JavaScript
- Technical Documentation
- Multilingual Communication
- Process Automation
- Technical Training & Translation

Interests

- ✈ Private Pilot (PPL)
- 🎸 Guitar & Bass
- 💻 Programming & DIY
- 🏃 Jogging · Cycling
- 🎨 Drawing & Painting

PROFESSIONAL SUMMARY

Senior Technical Data & SAP Specialist with 35+ years of experience in industrial engineering, SAP master data management, technical standards, software development, and multilingual data systems within international manufacturing environments. Extensive experience with SAP, engineering standards (DIN/ISO/EN), database development, automation, AI/ML solutions, CAD systems, and technical classification. Proven ability to lead complex data migration and standardization projects in global industrial organizations.

PROFESSIONAL EXPERIENCE

MAN Energy Solutions SE

Augsburg, Germany | Hybrid

Senior Technical Specialist – SAP Master Data, Standards & AI

2008 – Oct 2025

- **SAP Master Data Governance:** Implemented a DIN 32705 classification system for 1.3M SAP material records using custom semi-automated tools; cleansed and enriched ~15M product attributes (DIN 4000) through a purpose-built data management solution.
- **AI & Automation:** Developed deep learning solutions (Python, OpenCV, TensorFlow, PyTorch) for automated logo detection and replacement in technical drawings; ML-based classification of SAP material descriptions using contour and part recognition.
- **SAP Mapping & Classification:** Developed a fully automated classification solution for 2.5M SAP materials using custom algorithms (Python/AI, MySQL, VBA, SAP GUI Scripting).
- **SAP GUI Scripting:** Built VBScript-based automation tools for SAP enabling parallel export of 100 files across 5 sessions for cost management, CS15 material usage, and CS12 BOM explosion.
- **Cost Management Solution:** Developed a data-driven tool integrating SAP data to analyze and benchmark order costs vs. historical trends, with automated reporting to improve cost transparency and decision-making.
- **Materials Expertise:** Created and maintained ~2,000 material datasheets and specifications (MatDB/Genesis) covering chemical, mechanical, physical and fatigue properties; systematic search and recommendation of alternative materials from international standards (Japan, India, China, USA).
- **Materials Standards Consulting:** Provided advisory services on international material norms and alternative material selection; consulted internal engineering, quality and production departments on norm compliance (DIN, EN, ISO, FKM).
- **Terminology Management:** Led the implementation of the «SeMANtics» terminology project; reviewed, validated and standardized multilingual technical terminology (DE/EN/FR/ES).
- **Database & Web Solutions:** Designed and delivered custom database solutions as desktop applications (VBA, SQL) and web-based systems (PHP, MySQL, JavaScript, HTML); developed and adapted the web-based materials platform MatDB with interfaces to ANSYS, FKM and Creo.
- **Engineering Calculations:** Developed an O-ring groove calculator (DIN ISO 3601-1/-2); performed fatigue and strength analyses per DIN, EN, ISO and FKM guidelines.
- **3D CAD & Standards:** Created 3D CAD models (Creo/Partsolutions) and approved standard part variants; managed engineering standards documentation (DIN 820-1/-2/-3) using Perinorm and DIS.
- **Training & Knowledge Transfer:** Created and presented multilingual technical training materials (DE/EN/FR) for Perinorm, MatDB and materials colloquia.

MAN Diesel & Turbo SE

Augsburg, Germany

Technical Data & Standards Specialist / SAP Master Data Specialist

2002 – 2008

- Managed SAP material master data and technical classification systems; supported international engineering departments on standards and technical compliance.
- Customized SAP applications; implemented patent monitoring systems (patentGate).
- Created and maintained material data sheets and managed engineering standards (Perinorm, DIS, DIN 820-1/-2/-3).
- Coordinated multilingual technical terminology and R&D report administration (Documentum); maintained department intranet.

MAN Technologie AG

Augsburg, Germany

IT Support / Data Organization Specialist

1987 – 2002

- Built and administered web and intranet systems (HTML, PHP, JavaScript, Linux).
- Developed MS Access and SQL database applications (VBA); migration and automation tools with 4GL Final language.
- Data center operations management (IBM 4381 VM/VSE, VAX 9000 VMS, HP3000 MPE/XL, SAP R/3 on HP9000).
- CNC Programmer (1987–1992): precision aerospace components, Ariane 4 & 5 programs; shift supervisor.

EDUCATION & CERTIFICATIONS

▶ Certified Industrial Master - Mechanical Engineering <i>German Chamber of Commerce - Augsburg, Bayern, Germany</i>	1992
▶ Certified Application Programmer (IHK) <i>IHK Augsburg, Bayern, Germany</i>	1994
▶ DIN Standardization Expert <i>DIN German Institute for Standardization – Berlin, Germany</i>	2013
▶ Web Design & Administration (CAWeb Master) <i>CAWeb Master's Program - University Strasbourg, France</i>	2020
▶ Diploma – CAD technical Draughtman (Industrial) <i>Studiengemeinschaft Darmstadt Darmstadt, Germany</i>	1986
▶ XDEV / Java / Software Development Training <i>Professional Training</i>	
▶ English Communication (B2.2) <i>Language Training</i>	
▶ Spanish Intermediate (B1) <i>Language Training</i>	

TECHNICAL SKILLS

ERP / Database: SAP R/3 (MM, PP, QM, FI, CO), MS Access, MySQL, phpMyAdmin, Neo4j, XDev, MS-SQL, Oracle, INFORMIX

AI / ML: Python, TensorFlow, Pillow, PyTorch, OpenCV, Scikit-learn, Contour and image Recognition, Deep learning

CAD / Engineering: Creo, Pro/E, AutoCAD Mechanical, Mathcad 15, FEMFAT, Partsolutions

Standards: Perinorm, DIS, DIN 820 / DIN 32705 / DIN 4000 / ISO 2768 / ISO 3601, EU Machinery Directive 2006/42/CE, Pressure Equipment Directive

Material Science: MatDB, Genesis (IMA), Total Materia, Stahlschlüssel, ANSYS, FKM, WIAM, Perinorm

Programming: C++, ABAP/4, VBA, Java, VBScript, Python, JavaScript, SAP GUI Scripting, Autolt, PHP, HTML, 4GL Final, Perl, CGI, Autolisp, Turbo Pascal, Programmation CNC

Office / Tools: MS Office, MS-Visio, MS-Project, MS-SharePoint, Documentum

Operating Systems: Windows Server, Unix, Linux, macOS, HP-UX
